Just to give you an update, we are reviewing the contract docs this morning. We still need the revised quote from you with the additional 'experience' bit added. We will then add this to the contract as an annex.

We are using the standard Commonwealth contract suite, so this should all be straight forward. I've put a start date in of 6 April, so we can finalise the contracts this week.

Cheers

Hi s

Hope you're well. Sorry to do this to you again, but I am wondering whether it might be possible to get an updated interim extract of the survey data today, please? s 47(1)(b)

We have to deliver an urgent briefing and it would be ideal to use the most up to date data we have available. If you could let me know as soon as you are able, and when you think you can provide an update extract, that would be excellent.

Thanks again, we really appreciate it.

Cheers, s 22(1)(a)(ii)

Hi s

Thanks for sending this through – it's very exciting!

I have a few requested changes (which I have noted in the CHANGE REQUEST function) mainly relating to slightly rewording questions, although I did forget to include a skip pattern towards the end. Ideally, we would like to get our colleagues to run through it and pilot it for us s 47(1)(b) Just thinking about timings however – assuming it is all minor changes, how long will it take you guys to make them and get the survey back to us for another look?

Cheers!

Subject: RE: s 47(1) Australian Women survey - Test link ready

Hi s 22(1)

Your online survey s 47(1)(b) Australian Women survey is now ready for you to test.

s 47C

Note 2: Whilst the survey is in 'test mode' the following features occur:

- A 'go-back' button will appear
- System messages for test notes will appear in green
- Question numbers will be displayed
- You may 'go-back' even if you are terminated
- A Control & Support button will appear in the top right of the screen. This allows you to move to any section in the survey by choosing the appropriate question.

CHANGES – DETAILED INSTRUCTIONS

Any changes you would like to make to the survey should be submitted using the CHANGE request system which is at the bottom of the pop out screen that appears when you click on the Control & Support button. This is by far the most effective way to submit a change request to our team. Please follow the instructions from within the Change Request system. To view a list of all change requested please click on the 'REVIEW REQUESTS' button at any time.

When you have completed testing click on the REVIEW REQUESTS button, select the changes you would like to confirm and click on 'Submit Selected' or 'Submit All' to submit these changes to our team. This will forward an email to the Project Manager and an email will also be sent to you for your records. When changes are completed we will send you a follow-up email detailing any notes that may be applicable against each change request.

Cheers,

S

Hi s

Goodness you guys work quick!

I don't think there was any requirement on our end for the fieldwork to go for s 47(1)(b) other than to provide sufficient time for i-link to fill the required quota of s 47(1). s 47(1)(b)

Unless Rick s you have any views to the contrary?

Cheers,

Hi s 22(1)

Happy Monday – I hope you’ve had a fab long weekend!

I reviewed the questionnaire and briefed our scripter earlier today. We’ve scripted 40% of the survey so far and we have no questions at this stage.

s will be helping me manage this project from our end and will send a confirmation email through tomorrow before midday. This email will outline timelines for all deliverables and confirm the specs for this project.

In the meantime, if you have any questions at all, please email or call me.

Cheers,

s

Thanks for this s, much appreciated.

Can I just confirm that this is the final wording for the survey that went into the field and includes all the changes we made during the review stage of the process?
